

Enjoy an
All-Expense Paid
afternoon of custom
water-saving tips & rebates
for your home!

For a better world, sign up for our indoor water conservation programs.

You're probably using more water in your home than you realize. The Santa Clara Valley Water District offers several programs to help residents save 20 gallons a day. Check out these programs to see how you can save:

→ Water-Wise House Call Program

A free program where a surveyor will come to your home and offer suggestions on how to use water more efficiently both inside and outside your home.

→ Clothes Washer Rebate Program

Offers residents a rebate of up to \$125 for the purchase and installation of a qualifying new high-efficiency clothes washer.

→ High-Efficiency Toilet Rebate Program

Offers residents a rebate of up to \$125 for replacing toilets that use 3.5 gallons per flush or more with qualifying high-efficiency toilets.

→ Free Low-Flow Showerheads and more

Provides free low-flow showerheads, faucet aerators, toilet flappers and dye tablets to check for toilet leaks.

Small actions can add up to huge water savings. If everyone in Santa Clara County saved 20 gallons a day, we'd save over 13 billion gallons a year.

For more information, visit save20gallons.org or call 408.265.2607, ext. 2554.

Programs subject to funding availability. Certain restrictions apply.

We'll Help
foot the bill!

For a better world, sign up for our outdoor water conservation programs.

You're probably using more water around your home than you should be. The Santa Clara Valley Water District offers several programs to help residents save 20 gallons a day. Check out these programs to see how you can save:

→ Water-Wise House Call Program

A free program where a surveyor will come to your home and offer suggestions on how to use water more efficiently both inside and outside your home.

→ Replace high-water using landscapes

Installing qualified low-water using landscapes can reduce irrigation water use up to 20%, and homeowners can qualify for rebates through our Landscape Rebate Program.

→ Purchase and install efficient irrigation equipment

Homeowners can receive rebates for upgrading to qualifying irrigation hardware through our Landscape Rebate Program.

→ Install weather-based irrigation controllers

These controllers use local weather conditions to calculate and adjust a site-specific irrigation schedule. They not only maximize water efficiency, they also qualify for rebates through our Landscape Rebate Program.

Small actions can add up to huge water savings. If everyone in Santa Clara County saved 20 gallons a day, we'd save over 13 billion gallons a year.
